

SHIVLING TREKKING TOUR

The trek mentioned in the following itinerary is interesting not only for the trekker, but also for the keen photographer, the one interested in wildlife and flora, and for the one with a taste for spirituality and religion. Most of the places, mountains and glaciers mentioned in the trek are part of ancient stories and narrations mentioned in our sacred texts. It would not be an overstatement if we call this area the Mecca for Hindus, as the visit to the river Ganga and its source is the desire of every devout Hindu. Mt. Shivling - the highlight of the trek denotes the "Shivling" - the symbol of Lord Shiva. Trek to the North of Mt. Shivling (6543 mts) peak takes one to Meru Bamak (glacier), and another trek to the Kirti Bamak (Glacier) to the South. The camping experience to the North East of Mt. Shivling at the famed Tapovan meadows is a very rewarding experience indeed!

The trek is moderate most of the times and hard at certain stretches, owing to the altitude factor, but covers many destinations in a very short duration.
